Anne Arundel County Department of Inspections and Permits will Require Stormwater Best Management Practices “Hand-Off” Meetings

The proper design and construction of an engineered Stormwater Best Management Practice (BMP) is essential to its ability to detain runoff and adequately remove pollutants from the stormwater. Equally important is the proper operation and upkeep of such a facility. Proper maintenance will not only increase the expected lifespan of the facility, but will also improve aesthetics and property value.

Effective December 1, 2021, the Anne Arundel County Department of Inspections and Permits will require BMP “Hand-Off” meetings. These meetings will include the development Homeowner Association (HOA), the developer and County staff after BMP as-built drawings have been approved.

The purpose of Hand-Off meetings is to help ensure HOAs have necessary information about the BMPs they will be owning and maintaining.

For specific information please refer to the Hand-Off [memo](#) and [bulletin](#).

Question should be forwarded to Raghu Badami, Engineer Manager at 410-222-6137 or ipbada78@aacounty.org.
