- '88888', '8888', OR '888': These error codes were used where a numeric value was mandatory but no data were collected. The length of the error code used depends on the field size limit.

General Comments:

- This year's submittal conforms to the latest schema provided by MDE in September 2023.
- *AlternateBMPLine* feature class: IMPL_COMP_YR for projects not moving forward will be marked as 0 and the IMPL_STATUS will be "P"
- *AltBMPPoly* feature class: Catch Basin Cleaning SDV_MATERIAL was set to "Organic", but comments clarify that credits were computed assuming material was 50% organic and 50% inorganic.
- *BMP* Feature Class: IMPL_COMP_YR for New Restoration and Conversion of Existing BMP projects not moving forward will be marked as 0 and the IMPL_STATUS will be "P". Value will be Null for New Development and Redevelopment BMPs.
- *Outfall* feature class: SIZE_OUTFALL is 0 for unknown outfall size as noted in GEN_COMMENTS
- *IDDEScreening* table: Observed flow was not limited to hundredths CFS.
- *LocalConcern* table: This table has no records. There are no chemical monitoring data collected for local concerns at this time.
- *LocalTMDLProgress* table: FC, ECOLI, and PCB's have PERMIT_LOAD and CURRENT_LOAD set to '88888' as TMDL progress for these parameters is now assessed by monitoring rather than modeling; this is also noted in GEN_COMMENTS
- *BiologicalMonitoring* table: This table has no records. The County has submitted its data this year in the *MS4 Statewide Biological Data Entry* Excel format.
- *ChemicalMonitoring* table: This table has no records. The County now participates in the Pooled Monitoring Program.
- *MonitoringSite* and *MonitoringDrainageArea* feature classes: These feature classes have no records. The County now participates in the Pooled Monitoring Program for chemical monitoring and has submitted biological site information in the *MS4 Statewide Biological Data Entry* Excel format.
- *Chemical Application* table: CHEM_CAT field length changed from 5 to 6 to fit coded domain value of ANTICE.
- *DischargesGreyInfrastructureProtocols* table: Table is empty
