389 BURNS CROSSING ROAD
SEVERN, MD 21144

Re: Registration of Application Number: **12SW1304A**; NPDES Number: **MDR001304**

Dear MARK MORRIS:

This letter will serve as notification that your modified NOI has been accepted for registration under the General Discharge Permit for Storm Water Associated with Industrial Activities, Permit No. 12SW for stormwater discharges into **the Severn River-02131002**. Keep this for your records and provide it to your local jurisdiction as required by the permit. A copy of the permit and this letter should also be kept with your SWPPP onsite. The permit may be printed from MDE's website or from this link <http://9nl.at/MD-SWGP>.

In signing the NOI and providing your updated SWPPP you have certified your agreement to comply with the terms of this permit for the facility **Millersville Landfill & Resource Recovery Facility**, located at **389 Burns Crossing Rd, Severn, MD 21144**. Your facility's permit coverage is identified by Registration Number **12SW1304A**. This coverage will continue until December 31, 2018, or as extended, under the terms of the 12-SW permit.

You should thoroughly review the permit to make sure you are always in compliance with its requirements. Those requirements include, but are not limited to, selecting and implementing the specific control measure for your industry, performing quarterly visual monitoring requirements, performing the annual Comprehensive Site Compliance Evaluations. The permit also has triggers and requirements for corrective actions.

Your facility discharges into a watershed which is impaired for the following categories: Biological, Nutrients, PCBs and Sediments. Based on this status you must evaluate your control measures to ensure you are minimizing your facility discharges relating to these impairments during each annual comprehensive site compliance evaluation. See Part V.A.2 of the permit.

Your facility continues to be subject to Benchmark Monitoring with this modification. You will need to report the Benchmarks for the Subsector L1 Landfill or Land Application Site industry sector(s) quarterly until the requirements of the permit are met. Refer to Part V.B of the permit and to your facility's original registration letter.

Subsector L1 Benchmarks

| PARAMETER | Benchmark | Units | Frequency | Sample Type |
|------------------------------|-----------|-------|-----------|-------------|
| Total Suspended Solids (TSS) | 100 | mg/L | 1/quarter | Grab |

Please direct all future correspondence regarding permit compliance to the following address:

Re: Registration of Application Number: **12SW0298A**; NPDES Number: **MDR000298**

Dear MARK MORRIS:

This letter will serve as notification that your **modified** NOI has been accepted for registration under the General Discharge Permit for Storm Water Associated with Industrial Activities, Permit No. 12SW for stormwater discharges into **the Baltimore Harbor-02130903**. Keep this for your records and provide it to your local jurisdiction as required by the permit. A copy of the permit and this letter should also be kept with your SWPPP onsite. The permit may be printed from MDE's website or from this link <http://9nl.at/MD-SWGP>.

In signing the NOI and providing your updated SWPPP you have certified your agreement to comply with the terms of this permit for the facility **Northern Recycling Center**, located at **100 Dover Rd, Glen Burnie, MD 21061**. Your facility's permit coverage is identified by Registration Number **12SW0298A**. This coverage will continue until December 31, 2018, or as extended, under the terms of the 12-SW permit.

You should thoroughly review the permit to make sure you are always in compliance with its requirements. Those requirements include, but are not limited to, selecting and implementing the specific control measure for your industry, performing quarterly visual monitoring requirements, performing the annual Comprehensive Site Compliance Evaluations. The permit also has triggers and requirements for corrective actions.

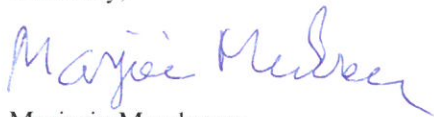

Your facility discharges into a watershed which is impaired for the following categories: Bacteria, Biological, Metals, Nutrients, PCBs, Pesticides and Sediments. Based on this status you must evaluate your control measures to ensure you are minimizing your facility discharges relating to these impairments during each annual comprehensive site compliance evaluation. See Part V.A.2 of the permit.

Re: Registration of Application Number: 12SW0297A; NPDES Number: MDR000297

Dear MARK MORRIS:

This letter will serve as notification that your **modified** NOI has been accepted for registration under the General Discharge Permit for Storm Water Associated with Industrial Activities, Permit No. 12SW for stormwater discharges into **the West Chesapeake Bay-02131005**. Keep this for your records and provide it to your local jurisdiction as required by the permit. A copy of the permit and this letter should also be kept with your SWPPP onsite. The permit may be printed from MDE's website or from this link <http://9nl.at/MD-SWGP>.

In signing the NOI and providing your updated SWPPP you have certified your agreement to comply with the terms of this permit for the facility **Southern Recycling Center**, located at **5400 Nutwell Sudley Rd, Deale, MD 20751**. Your facility's permit coverage is identified by Registration Number **12SW0297A**. This coverage will continue until December 31, 2018, or as extended, under the terms of the 12-SW permit.

You should thoroughly review the permit to make sure you are always in compliance with its requirements. Those requirements include, but are not limited to, selecting and implementing the specific control measure for your industry, performing quarterly visual monitoring requirements, performing the annual Comprehensive Site Compliance Evaluations. The permit also has triggers and requirements for corrective actions.

Your facility discharges into a watershed which is impaired for the following categories: Bacteria, Biological and Sediments. Based on this status you must evaluate your control measures to ensure you are minimizing your facility discharges relating to these impairments during each annual comprehensive site compliance evaluation. See Part V.A.2 of the permit.
